MASHRABYA CNC

A modern design inspired by traditional mashrabiya, crafted using precise cutting techniques to create elegant patterns that balance light, airflow, and privacy, We at Glass solution add a refined and distinctive architectural touch

ABOUT OUR SERVICES

We provide high-precision fiber laser CNC cutting services for a wide range of metal sheets. Our advanced laser cutting technology ensures accurate dimensions, clean edges, and efficient production, making it suitable for industrial, commercial, and custom fabrication applications.

Our fiber laser cutting solutions are designed to deliver high-speed cutting, minimal material waste, and exceptional finishing quality across multiple metal types.

We support small custom jobs, prototype production, and large-scale industrial orders.

OUR VISION

To be a model through innovation in the glass industry construction projects locally and regionally, pioneering next-generation glass solutions that clearly define the future of innovation.

OUR MISSION

Providing our customers with integrated services for glass works through continuous improvement of our skills and the quality of our products at competitive prices that meet customers' needs and satisfaction.

OUR TECHNOLOGY FIBER LASER CNC CUTTING

Fiber laser cutting is one of the most advanced metal cutting technologies available today. It offers superior precision and speed compared to traditional cutting methods.

KEY ADVANTAGES

- High precision cutting
- Smooth and burr-free edges
- Minimal heat distortion
- Faster production speed
- High repeat accuracy
- Suitable for complex designs

Our CNC laser systems ensure consistent quality and high productivity for every project.

OUR CAPABILITIES

CNC Laser Cutting Services Include:

- Custom sheet metal cutting
- Industrial component manufacturing
- Decorative metal cutting
- Prototype production
- Bulk production orders
- Precision engineering parts

Quality & Precision

Our laser cutting process ensures:

- High dimensional accuracy
- Clean cutting edges
- Reduced finishing work
- Consistent production quality

Why Choose Us

- Advanced Fiber Laser Technology
- Precision CNC Control
- Fast Production Turnaround
- Competitive Pricing
- Custom Design Support
- Reliable Service
