GLASS ROOM

Glass rooms provide a modern and practical solution for both outdoor and indoor spaces, combining functionality with a refined architectural aesthetic while maintaining visual openness to the surrounding environment. Their glass enclosures maximize natural light and exterior views while creating a comfortable and protected space for various uses.

With flexible design options, glass rooms can be customized in different sizes and configurations to suit the site conditions and specific project requirements.

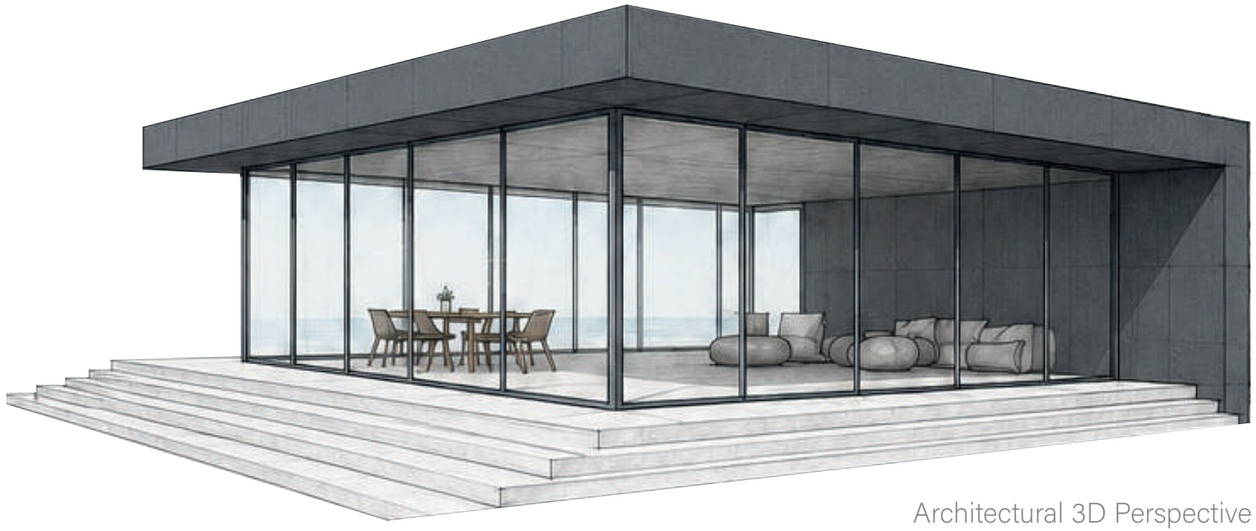

RECOMMENDED SIZE

3 × 3 m / 3 × 6 m / 6 × 6 m / 6 × 9 m

Height: 260 cm / 300 cm / 350 cm
